

Overview

The Malaysian higher education sector has grown tremendously in the past decade and is currently ranked the world's 11th most preferred study destination by UNESCO. The next few years are especially significant for the Malaysian education landscape to boost up and it is essential to take stock of the progress, the challenges and the opportunities en route to a world-class education system.

In regards with the National Higher Education Action Plan Phase 2 (2011-2015) and mission and vision of MOHE, it is crucial to create a higher education environment that foster the development of academic and institutional excellence thus, securing its position as a global education hub. Therefore, the Higher Education Ministry has a range of initiatives to unlock the potential that the sector holds for achieving developed nation status by 2020.

The aim of the conference is to gain insights on how higher education institutions contribute in achieving the direction of the government in establishing Malaysia as a Centre of Excellence for Higher Education by the year 2020 while playing a more proactive role in ensuring the employability of produced graduates.

Key benefits of the conference:

- Preparing a new generation of Malaysians for evolving needs of the employment market
- Strengthening national competitiveness and quality of higher education & tertiary institutions
- Developing critical thinking and innovative individuals
- Identifying challenges and opportunities in strengthening the institution leadership for better university governance
